

QUALITY POLICY

To all Managers of corporate functions and their collaborators.

Through the present document, the GM is communicating the summary of the fundamental requirements, in accordance with what emerged from the analysis of LEAS context and processes, of the relevant requirements, of the interested parties and of the analysis of related risks and opportunities.

Full satisfaction of customer needs, stated requests and expected requirements.

Maintenance and improvement of the relationship of trust with the customer.

Supply of the product and of the service with the maximum quality standards.

Involvement, improvement and satisfaction of internal collaborators.

Optimization of resources and reduction of costs due to wastes/shortages.

Achievement of technical, organizational and management high level standards and their maintenance, according to continuous improvement logics.

Trusting the approval of everyone and thanking in advance for the cooperation, the Management cordially greets and wishes all of you a nice day at work.
